

The 7th EURECA Workshop – Stockholm

22 – 23 March 2017

Interested to know more about realising benefits from energy-saving and environmental data centre best practices? Curious about examples, tools and solutions that contribute to successful Public Sector procurement endeavours?

The programme includes case study presentations, training sessions (on data centre energy efficiency best practices) and live EURECA tool demos. The event is suitable for **both public and private sector**:

- ✓ *Procurement officers*
- ✓ *Decision makers & CxO's,*
- ✓ *Policy makers,*
- ✓ *ICT managers & practitioners,*
- ✓ *Data centre managers,*
- ✓ *Energy managers,*

Venue: BEST WESTERN Kom Hotel
Döbelnsgatan 17, 111 40 Stockholm, Sweden

We look forward to seeing you there!

Register via the [workshop](#) page on our website [dceureca.eu](https://www.dceureca.eu)

About EURECA

« Committed to support the Public Sector to procure innovative and environmentally sound Data Centre products and services »

The Public Sector is moving to ever more digitisation and e-services to reduce costs under even tighter budgetary constraints. With additional concerns about energy consumption and sustainability of IT, governments are recommending measures such as consolidation, uptake of innovative cooling and various Cloud initiatives. Finding the right balance can be a bit of a challenge.

This event is organised by the EURECA project, which is an EU Commission H2020 funded initiative.

Join our EURECA Special Interest Group community

@EURECAproject

<https://www.dceureca.eu>

Examples of success and availability of good practices knowledge is, however, also growing. EURECA aims to harness the tools and knowledge available to support Public Sector efforts in identifying cost saving opportunities whilst signposting the environmental impact of procurement choices.

Day 1: Innovation for Green Data Centre solutions, a joint public sector and industry effort

| | | |
|---------------|---|---|
| 12:00 - 12:45 | <i>Registration, lunch and early networking opportunities</i> | |
| 12:45 - 12:50 | Jaak Vlasveld (Chair), Green IT Amsterdam | Opening welcome |
| 12:50 - 13:00 | Dr. Rabih Bashroush, University of East-London | Introduction to today's (and tomorrow's) events |
| 13:00 - 13:35 | Daniel Melin, Statens inköpscentral | Key Note: Towards an open and green public data centre infrastructure with a Swedish GovCloud |
| 13:35 - 14:10 | Tor Björn Minde, CEO RISE SICS North | Key Note: How an industrial approach to R&D on data centres leads to new opportunities in sustainability |
| 14:10 - 14:30 | Mats Nilsson Hahne, Interxion | Key Note: How improving connectivity and reliability leads to greener services that provide more value to end-users |
| 14:30 - 15:00 | <i>Break: snacks, coffee & networking</i> | |
| 15:00 - 15:30 | Dr. Rabih Bashroush, University of East-London | A 'highlights tour' and demo of the EURECA platform |
| 15:30 - 16:05 | Tim Willoughby, Head of IT & Innovation, Garda (Irish National Police) | Key Note: EURECA Case study: The Government Challenge – Cloud vs Data Centre in a Secure World |
| 16:05 - 16:45 | Dr. Jon Summers, University of Leeds | PPI for procurement and ICT professionals: pitches and panel discussion |
| 16:45 - 17:00 | Dr. Rabih Bashroush | Recap of the day and a look ahead for tomorrow |
| 17:00 - 18:00 | <i>Network drinks with EURECA team, speakers and fellow attendees</i> | |

Day 2: Get a head start with the EURECA Training for both procurers and ICT professionals

| | | |
|---------------|---|---|
| >09:30 | <i>Registration and coffee/tea</i> | |
| 10:00 - 10:15 | Esther van Bergen (Chair), Green IT Amsterdam | A welcome & introduction to today's free training sessions agenda |
| 10:15 - 11:00 | Joseph Doyle, University of East-London | An extended exploration of the EURECA tool's features |
| 11:00 - 12:00 | Dr. Rabih Bashroush, University of East-London | Business Case Development: What are the basics of a PPI focused business case? |
| 12:00 - 12:30 | <i>Complementary lunch</i> | |
| 13:00 - 13:45 | John Booth, Carbon3IT | Exploration of Tendering practices for PPI of DC solutions |
| 13:45 - 14:05 | Julie Chenadec, Green IT Amsterdam | Highlighting prominent EU legislation and policies from both Public sector and industry perspective |
| 14:05 - 14:20 | <i>Break: Opportunity to refresh with drinks and network</i> | |
| 14:20 - 15:00 | Mark Acton, CBRE Data Centre Solutions | Contracts and Risk mitigation: Key aspects to look out for in regarding data centre solutions |
| 15:00 - 15:50 | John Booth, Carbon3IT | EU Code of Conduct of Energy Efficiency for Data Centres: 150 best practices |
| 15:50 - 16:30 | Frank Verhagen, Certios | Data Centre Maturity (Assessment) model: the first place to start to find out which areas to improve |
| 16:30 - 17:15 | Steve Hone, Data Centre Alliance | What are the current best practice data centre KPI's and standards and what's on the horizon |
| 17:15 < | <i>Network drinks with EURECA team, speakers and fellow attendees</i> | |
